

Pastor X

A message received from Elly in Kenya. A pastor learned about God in a different way than so many have been taught, and he is excited:

“Servant Elly, good afternoon. I think God has begun the new year with you well and you are in good health and your family.

Elly sorry we couldn't organize the Bible study last year due to some commitments! As this year begins I want to request that you organize yourself and be ready cause we will call you anytime from now. Since you [shared with us] this message entered the church and interested members have been coming back to church on Sabbath in the evening for Bible discussion, which was dead a while ago!

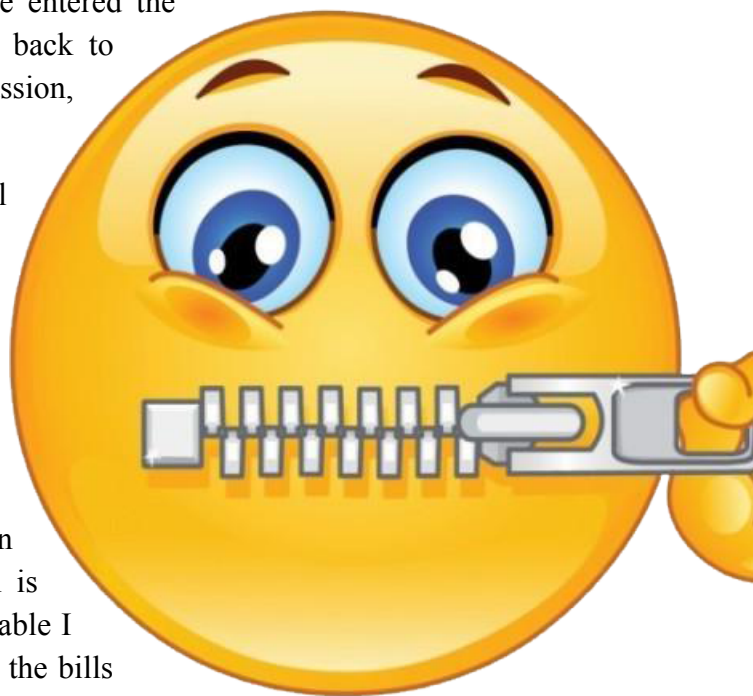

You will have to start with my district then you will go to the next neighbor district where the other pastor is.

Brother as I did mention earlier PLEASE KEEP IT SECRET AND DON'T MENTION MY NAME BEHIND IT! I will be organizing everything on the ground but as discreet.

I'm trying looking for the most secure and secret plan for the meeting. There's an hotel close here which is good, I'll see their conference hall rates. If it's affordable I and you can share the bill. I can't leave you with all the bills because all of us will benefit and we have to sacrifice for the truth.

But also don't mind going a little mileage more than me because my budget is so tight, I have three kids to pay their school fees which is more than my salary!

I'm praying God can provide you the resources and protection to spread this truth, the ground is full of thorns but I know God will stand with you.

End of last year we received an order from the conference that if any member of the church engage in or joins the so called One True God group, we should dis-fellowship them immediately!

So take care not to be recognized before your foundation is laid well and strong.

Brother Elly am praying for you always and be brave and focused in spreading this truth of the end times.

Remember to have printed teachings for the members.

Just to ask; do you present with a projector? If yes that is the most effective way of passing out the message well, because we have some slow listeners and with projector they can take pictures with their phones and read at their own time. If no try and acquire one am telling you you will capture the heart of many.

God bless you, am pastor X”

There are more of these silent believers ... Keep praying!

Update on the ‘Farm’

I’m positive we don’t have much more time to get ready for the troubles before us as Christians. My family and I have realized together that we’ve got to start growing our own food (I know... I’ve lived out of the cities long enough, some 20+ years, but I still don’t have a beautiful garden to prove it!). Anyway, we FINALLY have our own home and things are starting to get finished on the inside of the home (finishing our first home purchase, etc), so now... soon... it’s outside we go.

Well, after several months of looking, asking at least a dozen people, praying, etc, about a tractor (after the first one found a better home, as God put it on my heart to donate it to a brother who also could use it), I realized that I wasn’t going to get a decent tractor like I was hoping for without paying almost full price, like for a new one. I’d save about 15% or so if it were used (four wheel drive—a necessity here in Georgia, and backhoe compatible), and then God worked it out. Here’s how.

I was driving by a place in town I had been by 100 times thinking, “I should pull over there some time...” Then I said, “Okay, now’s the time.”

Well, the tractor type I was looking for was the very last one they had. It was a discounted price because the new company that bought them out wanted to bring their new tractors onto the lot... It was perfect timing. The next day I called and said, “Oh! I need to get a backhoe arm. Could

you please order one?" The guy there said, "yeah, no problem. They are about 547 bucks." He called me back about a minute later and apologized. He saw that since the last time he had ordered one they had gone up almost double! He said, "Well, since I had told you that price, do you mind meeting half way at \$750?" Again, perfect timing. Praise God.

There are three reasons why I believed a tractor is a good idea in this setting: helping people who don't have a tractor (similar to how the trailer has been used; that has been such a blessing in so many ways! In fact, a few days after getting the tractor I got a call from my neighbor who

wanted to borrow the trailer again, but I told him I had taken off the wheels to change out the seals and bearings. He then explained that he'd be stuck there a while because he had a leaking pipe in his field and was about to start digging... well... I drove on over and had him fixed up in about fifteen minutes, and it would have taken him several hours in this hardened clay!) The second reason is emergencies (floods, tornados or storms, etc. I've been involved in a lot of situations where a tractor has either been used or would have been a good thing to have), and finally the local farm. We are doing what we can to get busy gardening because of the serious events around us. It's going to get ugly soon—described by a video presentation entitled, "Joseph and the Common Good." If you haven't seen that one, you might be interested. It was presented at the Graysville OTG church in TN. A great group of people.

Twelve Years Old

I was able to preach at one true God church up in Tennessee and sat at lunch across the table from a young man that was 12 years old. I could tell he was so interested to say something to me after the adults were done speaking, I looked at him and said "How are you doing? Tell me your name again..." He told me his name and then excitedly said how much he really enjoys watching my sermons online. He said they've been going through the book of Job together as a family and said he really liked those messages. May God bless that young man! (I write these words with great enthusiasm.)

An Update from India

A message sent to me from Naik in India:

“Glory to Father and his Begotten Son Jesus Christ. With the help of a heavenly agency we finished a 3 days _____ mission trip. Different Denominational Pastors leaders and believers on the way, sharing and moving forward. Sick people, homeless, widows, orphans and vulnerable children and adults comforted By God's words. Blankets and Food and snacks given in the name of Jesus Christ, fellowship lunch and dinner served with love. On the way experienced super heavy rain in the deep forest at one stage lost village road, could not find our mud road, because rainwater destroyed little mud road direction's, we Called God loudly in the deep forest at very deep Darkness, (Maybe that was my Loud cry in wilderness). Again with heavy lightning ⚡ guided us on the road which direction we should go to reach the destination. Finally we reached villages, rain stopped, and whole village people wondered after seeing us, because we look like aliens from heaven. People hungry for the truth about True GOD and his Begotten Son Jesus, we have given them as much as we can give the spiritual food. I experienced, what is true in the rain, because it's the cold season in India, on top of it super heavy rain in deep forest, i don't have words to explain my situation at that time. I pray father in heaven, please make it bit hot weather for Indian people in heaven...ha...ha . Glory to God. Simple living lives in the forest villages, 98% Catholics occupied the villages by building Big churches and schools and hospitals in whole Odisha state. I never seen one Adventist Church or Sabbath keeper family in my 3 days of visit of 10 village's. I believe we are the first people entering with 3 angels messages and father and son truth in those places. When i started to share about angels messages to them, they are very happy to hear about God's angels helping and supporting in the spiritual journey. We trained our OTG missionaries, with different teachings of God, blessed them with help and Blankets, literatures. Light 🕯️ is shining in those souls for second coming of Jesus Christ. We are so thankful for your prayers and support for the Indian mission work by RevelationWithDaniel.com. Thank you Dear brother Daniel Mesa for your prayers and encouragement to me to share the Truth 🙏.

God bless you all. Keep me and my family in your daily prayers 🙏. Brother Naik.”

Pray for Naik, as he is now in Nepal teaching the pastors we had shared with together before.

Call the Police!

In response to the "call the police" message on YouTube, this comment came in:

"This happened to me at _____ in _____, they threatened to call the police and then made me very much unwelcome, they even went as far as grabbing anyone that would stop to talk with me I guess worried about whether they had listened to me or not, then when at another church a few years later the same thing happened when the minister was up on the pulpit showing the illustration of the SDA Trinity, I stood up and showed everyone the illustration of the Catholic Trinity and that they were indeed the same, save one is in color the other in black and white. Yep, they kicked me out and again and threatened to call the police. Interestingly enough the whole town seemed to take issue with this stand (even supposedly non believers) and I have been bashed, robbed, road raged, and at one stage twice been thrown in jail, but God is good. The minister at these local churches was terminated (not sure why yet) putting him out of work, so desperate for money he is now working for me... I hope soon the subject will come up again but I'm leaving it for God to hopefully lead him to do that, or maybe God is just doing it to help me out, not sure yet, time will tell..."

wow...

Going Back to Kenya with My Daughter

Due to the political movements in Kenya to vie for the next presidency, it seems that I was caught in the mix of making it difficult for people to obtain a visa. Now that the new president has taken his place, it was stated that it will now be easy for people to get into that country. Well, it was, at a greater expense than before... I'll be there at the end of this month, taking my daughter and our housecleaner who comes to help my mother in her area of the home. Yes, I could and do help my mother, but after meeting "L" we decided to continue working with her as she has been interested in Bible study, videos online, and then asked about coming on a mission trip! She's of the African descent, so it will be such a blessing for her to be there to meet the OTG folk while ministering to children along with my daughter! Pray for my daughter and L that they will have a good time. L is not very familiar with our faith, yet God has put it on her heart to go on this mission trip with us! Amen!

Kenya in December, Ethiopia in July, a prayer conference in TN in April, and many more opportunities God will open up!
