

## A Bishop and a Vicar

Wow... David Braman here in the US caught the attention of many people in Kenya as a result of sharing with individuals online about the truths of God's word (using WhatsApp). Many pastors have taken serious interest in the truths about the Sabbath and what the Bible says about the God of the Sabbath. I was introduced to one of those pastors, Samwel, while I was in Kenya this last time with my daughter and L.

Since being in Kenya and meeting Samwel, a Pentecostal bishop who accepted the Sabbath and began sharing it with his seven congregations, I have been interacting with him and another. Just a tidbit more, he was left with only 12 members after he introduced the Sabbath question to his congregations, but has since been getting inquiries about what the Bible really does say from several of his (former?) members.

Another who has inquired is an Anglican vicar named Absalom. Samwel sent me a video of Absalom telling that he was taught about the Bible Sabbath, Saturday instead of Sunday, and was directed to me to learn more about God in light of "God the Father, God the Son, and God the Holy Spirit." He said I could share that video publicly, but haven't done so, as I hope to interview him after he watches the five videos at the [RevelationWithDaniel.com/questions](http://RevelationWithDaniel.com/questions) page, as that is going to bring him much deeper into the meaning of the Sabbath and its importance. Then I will share, and he will be more ready to give an answer for the hope that is within him, with meekness and fear.

Keep praying! I'm heading back there in April, just a month and a half after going to first time! Why? Because there are hundreds of people now interested in God's special truths, including seven other pastors in that area!

(The bishop and vicar are not in the image.)

## Remember Pastor Onyango that was Interviewed?

*This was sent from Ernest Onyango, a pastor working now full time in Kenya in concert with the other ministries who are working for God's kingdom:*

“I am once again privileged to have this opportunity. Let us commit so much in prayers God has, is, and will continue doing great and marvelous things. Indeed I am praying for you and I know that the rest whom the truth has been revealed to are also doing the same. I thank God that the money you have been supporting us with I thought it wise that a portion be saved for I am looking forward that in the near future we buy a piece of land where a church will be built on. We can't just let people know truth then they remain not having where to go and worship God.

Secondly next month I will be out the whole month for an evangelist campaign, God willing am going to be with some University students of whom we are going to join together as we will be ministering for the sick as you know that, medical missionary is the wedge of the gospel in reaching many. Apostle Paul says this "And unto the Jews I became as a Jew, that I might gain the Jews, to them that are under the law, as under the law that I might gain them that are under the law." 1 COR 9:20. During that period I will collect some more materials from Sami to go and distribute of which God will never let that go without one getting truth after reading those materials. Let us continue in prayers as God Himself prepare the good soil for the germination of the seeds that will be sown during that time. God bless you.”

## A Well Bored in Africa

*This message originated from Wycliffe Omondi, a missionary working full time in Kenya with Gospel Sounders, at the sanitarium we helped establish years back:*

RevelationWithDaniel enabled “us to organize a well to be bored in Africa. The locals are excited, and we believe the gospel will be spread as a result.

Glory be to God. We can't stop from thanking and praising name of the Lord today. God has just provided for us much water at our Laikipia Sanitarium.

This will have a great impact to the community around who have been traveling long distances to get water, it shall also make the Gospel to reach out to many people in this area. We shall be able to grow lots of food now. Our Sanitarium will be a city of refuge to many, who are suffering with diverse manner of diseases.

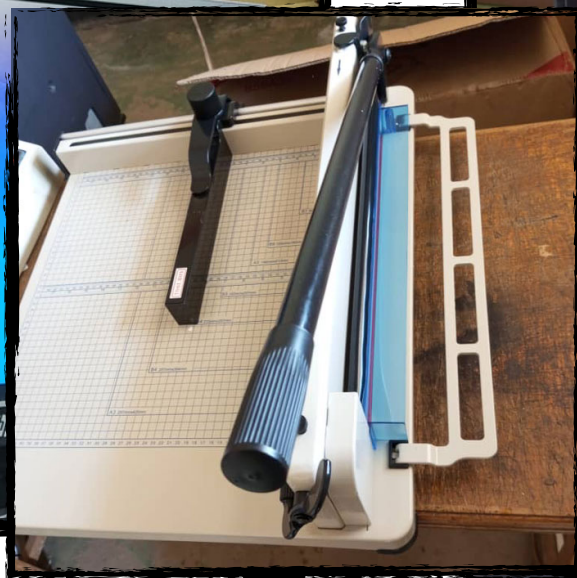

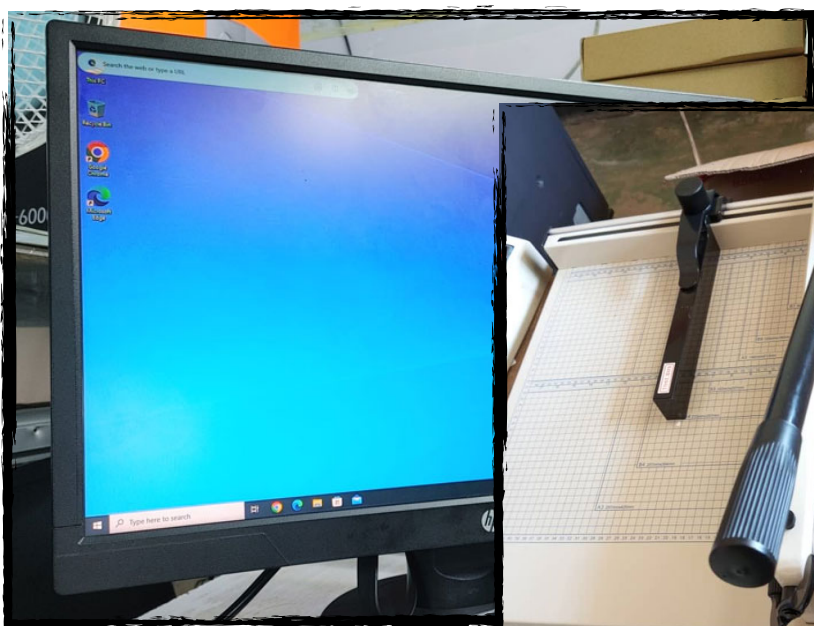

This is halfway the project, we need tanks with large water storage capacity and the solar pump.

May the name of the Lord be glorified.”

## Hardware to Uganda

*This message was forwarded to me through Sami:*

"Greetings Pastor Daniel Mesa. My heart is so much delighted this evening to bring you good news that we received the machines today. I really thank God that you could hear me out and made sure that it was possible for us to get the machines. I can say Amen and Amen even 10 times and glory and honor to our heavenly Father. I believe we are going to be able to organize and see how we can bring the other person who was willing to be trained and to work in the publishing department."

## A Word from a Chef in Kenya

*Taught how to cook in part by Remi Wilberforce, Sami's wife, Stephen in Kenya prepared incredible and healthful food for my daughter, L, and me while we ministered there in February. He wants to be a chef full time. Learn part of his story:*

“Greetings pastor, ...

I had given my life as a young person from a tender age began the ministry at 17y to serve the Lord. At the same time all the responsibility of the whole family is upon me.

Am having a single mother who is blind, and for that reason she's limited of doing almost everything that is income generating.

I am the eldest son and have another brother who comes immediately after me age 18 he is also seriously sick mentally. He was okay till the age of 13 when there was some family crisis that led him to develop that, Am also responsible for him.

I have a younger sister who had been the eye of mum but currently she's developing eye problem which is leading her to loosing also her eyes.

She was forced to drop out of school because of her conditions.

This the burden that I have and God has been faithful in helping me to carry it.

Thanks for GSrrM currently working to help restore the eyes of my sister with natural remedies. please remember her in your personal and family prayers.

Thanks 🙏🙏”

We've sent a gift to help Stephen in his family situation. May God lead this situation...

## Bibles in Kenya

One of the ideas Pastor Milanda (the Pentecostal bishop mentioned before) had was to get a container for Bibles to keep them safe from the weather and to distribute them. I heard that idea as though God was speaking it directly to me. So, immediately after getting home from Kenya we have deliberated and concluded that the best location for the Bibles would be suited with a brick building instead of a metal container (because of the logistics of muddy roads in the rainy season, the time it would take to get the container, etc). So, here it goes! We will be building a 12x20 or 24 foot building to house Bibles in Ndhiwa, a central location for distribution.
